Press release

**VINCI Energies acquires Planus Informatica e Tecnologia,
an ICT solutions provider based in Brazil.**

VINCI Energies has acquired the Brazilian company Planus Informatica e Tecnologia, an ICT solutions provider based in Sao Paulo. Founded in 1987 by Marcos Ierizzo, the company counts more than 200 employees and has a full coverage of the Brazilian territory and facilities in three different cities.

Planus Informatica e Tecnologia delivers customized, flexible and integrated B2B IT solutions. In 2019, it has generated revenues of 24 M€ in the 4 main segments: Enterprise Network; Service Care; Printing & Device Management; Cloud.

VINCI Energies in Brazil achieved about €150 million turnover in 2019 and has 2300 employees. With this first ICT acquisition in the region, VINCI Energies is entering one of the largest information technology markets in the world.

"We are delighted to welcome Planus Informatica e Tecnologia within VINCI Energies. Its recognised and strong technological background will be a solid base for the reinforcement and development of our ICT solutions in Brazil," said Jean-Michel Lang, Managing Director of VINCI Energies in Brazil.

"For more than 30 years, we have been offering IT services and solutions that make our clients' daily lives easier through differentiated and innovative delivery. We are now starting a new journey by joining VINCI Energies. We strongly believe it will allow us to have an even stronger position in the market and benefit from the group's networks and opportunities for business, processes and also our employees," said Marcos Ierizzo, CEO of Planus Informatica e Tecnologia.

About VINCI Energies

In a world undergoing constant change, VINCI Energies focuses on connections, performance, energy efficiency and data to fast-track the rollout of new technologies and support two major changes: the digital transformation and the energy transition. With their strong regional roots, agile and innovative, VINCI Energies' business units boost the reliability, safety and efficiency of energy, transport and communication infrastructure, factories, buildings and information systems.

2019: €13.75 billion revenue // 82,500 employees // 1,800 business units // 56 countries
