

Frankfurt, 12th August 2020

Press release

VINCI Energies is acquiring enertech Energie und Technik GmbH, a company providing engineering services in the field of energy production and storage.

VINCI Energies has acquired enertech Energie und Technik GmbH based in Radebeul (Germany) by signing a contract dated 12 August 2020. With this acquisition, VINCI Energies is expanding the portfolio of its Omexom brand in the design of energy production and storage facilities.

enertech Energie und Technik GmbH is a specialist in energy and process engineering as well as system and plant engineering for medium-sized power generation plants and in pipeline planning. The company has its headquarters in Radebeul and a second location in Zittau. The 19 employees generate an annual turnover of around € 1.6 million.

Cris Hölzel, managing director of enertech Energie und Technik GmbH, adds: "Our services in the fields of energy and process engineering are the ideal complement to VINCI Energies, which has its planning strengths in the energy segment primarily in the electrical primary and secondary engineering. We see great synergy effects here in order to be prepared for tomorrow's markets".

"Enertech enjoys a very high reputation in the market. With this acquisition we are expanding our engineering expertise in all areas of sector coupling, such as grids, gas, heat and storage. We are thus developing into a system provider of complex consulting and planning solutions at the interface between electrical, process and process technology." - says Frank Westphal, CEO Omexom Germany

About VINCI Energies

In a world undergoing constant change, VINCI Energies focuses on connections, performance, energy efficiency and data to fast-track the rollout of new technologies and support two major changes: the digital transformation and the energy transition. With their strong regional roots, agile and innovative, VINCI Energies' business units boost the reliability, safety, sustainability and efficiency of energy, transport and communication infrastructure, factories, buildings and information systems.

2019: €13.75 billion revenue // 82,500 employees // 1,800 business units // 56 countries

In Germany: €2,3 billion revenue // 12.7000 employees // 330 locations
